Brent Nongbri, 28 March 2013

8 boxes of various materials including letters, off-prints, post cards, and newspaper clippings. Some organization by means of paper clips (and occasionally folders) that group together related materials. Groupings are often labeled with small handwritten notes.

Box 8 includes a catalogue of Turner’s library prepared in 1983. Many of these books are now in UWA’s stack collection (and many contain Turner’s marginal notes). Turner’s personal copies of his own books do not seem to have been included in UWA’s acquisition of Turner’s materials.
